Overview

High-Efficiency Charging Solution

The C1200 series battery charger is a robust and efficient power solution designed specifically for lithium-ion battery systems. Housed in a durable aluminium alloy shell, this charger provides a reliable 58.8V output at 20A, making it ideal for electric bikes, motorcycles, scooters, and various industrial equipment. With integrated safety features and clear LED status indicators, it offers a professional-grade charging experience for demanding applications.

Technical Specifications

Key Performance Metrics

58.8 V

Output Voltage

20 A

Output Current

788.4 W

Output Power

| | |
|-------------------------|-------------------------|
| Input Voltage Range | 110-132VAC / 200-264VAC |
| Compatible Battery Type | Li-ion / LiFePO4 |
| Cells in Series | 12 |

Physical Characteristics

| | |
|------------------|-------------------|
| Dimensions | 264 x 120 x 89 mm |
| Net Weight | 2.1 kg |
| Housing Material | Aluminium Alloy |

Compliance & Safety

| | |
|----------------|-----------|
| Certifications | CE |
| Warranty | 12 Months |

Applications

Typical Applications

- Electric Bike
- Electric Motorcycle
- Electric Scooter
- Cleaning Equipment
- Electric Vehicles
- Golf Carts
