

# 58.8V 2A Lithium-Ion Battery Charger for E-bikes

This lithium-ion battery charger provides a 58.8V output at 2A. It is designed for charging e-bikes, motorcycles and scooters.

## ADDITIONAL IMAGES

## Product Overview

### Professional Grade E-bike Charger

This high-performance 58.8V 2A lithium-ion battery charger is engineered for reliable and efficient power delivery to electric bikes, motorcycles, and scooters. Featuring a durable aluminum alloy housing, it ensures optimal heat dissipation and long-lasting protection. Designed with broad utility in mind, this unit supports a flexible input voltage range and is suitable for various applications including cleaning equipment and golf carts.

## Technical Specifications

### Output Power

<b>58.8 V</b> Output Voltage	<b>2 A</b> Rated Current	<b>117.6 W</b> Total Power
---------------------------------	-----------------------------	-------------------------------

**Input Voltage Range** 110-132VAC / 200-264VAC

**Battery Compatibility** 14S Li-ion Battery

## Physical Characteristics

<b>Dimensions</b>	137 x 90 x 51 mm
<b>Net Weight</b>	0.8 KG
<b>Housing Material</b>	Aluminium Alloy

## Compliance & Support

<b>Certifications</b>	CE
<b>Warranty</b>	12 Months

## Applications

### Compatible Applications

- Electric Bike
- Motorcycle
- Scooter
- Cleaning Equipment
- Golf Cart
