Product Overview

Compact Mobility for POS

The PT-280 is a compact and portable 58mm thermal receipt printer engineered for mobile point-of-sale (mPOS) applications. It features a high-speed thermal print head for fast, efficient receipt generation, making it ideal for retail, hospitality, logistics, and field service. With a rugged design, long-lasting battery, and versatile connectivity, it ensures reliable performance in demanding, on-the-go environments.

Technical Specifications

Print Width	58 mm
Connectivity	Bluetooth, USB
Command Set	ESC/POS

Key Features

Key Features

- Easy paper loading mechanism
- Low power consumption design
- Rugged construction for durability
- Intuitive status and error indicators

Ideal Applications

Retail • Hospitality • Logistics • Field Service • Transportation
