

58V Cordless Leaf Blower

This 58V cordless leaf blower is ideal for clearing yards and handling tough jobs. It is lightweight, quiet and powerful, making it suitable for use in urban areas.

Overview

Professional Cordless Performance

This 58V cordless leaf blower is engineered for efficient debris management, utilizing a high-performance brushless motor to provide consistent power for lawns, patios, and driveways. Its lightweight design combined with an ergonomic handle ensures operator comfort during extended work periods. With multiple speed settings including a powerful turbo mode, users can precisely control airflow for various cleaning tasks.

Technical Specifications

Motor Technology	BLDC Brushless
Operating Voltage	58 V
Maximum Power	0.78 kW

Performance

Air Flow Capacity

480 CFM

Max Air Speed (Turbo)

Battery Runtime (4Ah)

Speed Setting	Runtime
Low	60 min
Medium	30 min
High	17 min
Turbo	12 min

Physical Attributes

Weight (Tool Only)	3.7 kg
Vibration Level	2.05 m/s ²
Key Features	Cordless, Variable Speed, Ergonomic Design, Brushless Motor
