Product Overview

Innovative Under-Display Technology

This 5G smartphone redefines the viewing experience by utilizing advanced under-display camera technology, effectively eliminating notches and punch-holes for a true full-screen display. The device is powered by a high-performance Qualcomm Snapdragon processor, ensuring seamless multitasking and smooth operation. Designed for the modern professional, it integrates cutting-edge security features including an under-display fingerprint sensor and receiver for a sleek, unified aesthetic.

Technical Specifications

Physical Dimensions

172.1 mm

Length

77.9 mm

Width

7.98 mm

Height

Integrated Sensors

- Accelerator
- Approximator/Light sensor
- Compass
- Gyroscope

Positioning Systems

- GPS
- A-GPS
- Beifou
- GLONASS

Connectivity

5G, WiFi, Bluetooth

Interface

Type C

Innovation and Awards

Design Innovations

Under-display camera • Under-display fingerprint • Under-display receiver • Under-display light sensor
