

5kW Air-Cooled Diesel Generator

This 5kW air-cooled diesel generator is designed for reliable power generation. Its robust diesel engine provides efficient and stable electricity output, making it suitable for construction sites, outdoor events, and emergency backup power.

Overview

Reliable 5kW Power Solution

The 5kW Air-Cooled Diesel Generator is a robust power generation unit engineered for consistent performance and durability. Designed for versatility, it is an ideal choice for construction sites, outdoor events, and dependable emergency backup power. Its compact, portable frame ensures that stable electricity is available wherever it is needed most.

Technical Specifications

Rated Power Output

5 kW
Rated Power

Cooling System	Air-Cooled
Fuel Type	Diesel

Features

Key Features

- Robust diesel engine for stable output
- User-friendly control panel
- Multiple power outlets
- Compact, portable design
- Integrated wheels for easy transport

Applications

Recommended Use Cases	Construction Sites, Outdoor Events, Emergency Backup
