

# 5kW Diesel Generator, 418cc Engine, 5000W Continuous Output

This 5kW diesel generator is designed for reliable power generation. It features a robust diesel engine, providing efficient and consistent performance with multiple AC outlets for convenient power distribution.

## ADDITIONAL IMAGES

## Product Overview

### Reliable Power Generation

This robust diesel generator is engineered for dependable power supply in construction and outdoor environments. Featuring a powerful 418cc engine, it provides a continuous output of 5000W and includes safety features like low-oil level shutdown and hydraulic-magnetic circuit breakers. With a large-capacity steel fuel tank and electric start capability, this unit is designed for extended run times and hassle-free operation.

## Technical Specifications

Engine Displacement	418 cc
Continuous Output	5000 W
Peak Output	4500 W
Runtime at 50% Load	6.5 hours

## Features & Safety

### Key Features

- Electric start with battery included
- Low-oil level automatic shutdown
- Hydraulic-magnetic circuit breaker
- Large-capacity steel fuel tank with gauge
- Covered outlets for environmental protection

### Performance Metrics

**10 HP**  
Engine Power

### Certifications

CE, EMC, EU-V
