

5kW Gasoline Generator

This gasoline generator provides a reliable and portable power solution. It delivers a rated voltage of 230V and a frequency of 50Hz, with a rated power of 5kW and a maximum power of 5.5kW.

Overview

Reliable 5kW Power Solution

This 5kW portable gasoline generator is engineered for dependable performance in demanding environments. It features a robust, thick-pipe frame for enhanced protection and durability, coupled with an advanced ventilation system that ensures low running temperatures. With stable voltage output (THD less than 3%) and user-friendly maintenance features like an improved air filter, it provides a consistent and efficient power supply for various professional applications.

Performance Metrics

Power Output

5 kW Rated Power	5.5 kW Max Power	230 V Rated Voltage	50 Hz Frequency
----------------------------	----------------------------	-------------------------------	---------------------------

Voltage Stability

THD less than 3% (AVR equipped)

Features & Protection

Design Highlights

- Thick and big pipe frame
- Multi-indication digital meter
- Advanced muffler design for low noise
- Recoil starter with improved cooling
- Big fuel tank for extended runtime

Safety & Protection

Overload Protection, Short-circuit Protection, Low Oil Protection, Engine Oil Alert

Maintenance & Mobility

Maintenance Features

Newly designed air-filter for easy access and maintenance

Transportation

Yes
