

5kW Gasoline Generator with Electric Start

This gasoline generator delivers 5kW of rated power with a peak output of 5.5kW for starting larger equipment. It features an electric start with a 10Ah battery and can run for up to 11 hours on a full tank.

Overview

Reliable Power Generation

This 5kW gasoline generator is designed for robust performance in power transmission and distribution applications. Featuring a powerful 389cc engine with both recoil and electric start options, it provides consistent energy output for various professional needs. With a large 25L fuel tank and a durable protective frame, this unit offers extended run times and reliable portability for job sites or emergency backup.

Engine & Performance

| | |
|-----------------|------------------------------|
| Engine Model | GX390E |
| Displacement | 389 cc |
| Starting System | Recoil Start, Electric Start |

Electrical Output

Power Output

| | | |
|--------------------------------|----------------------------------|-------------------------|
| 5500 W Max AC Output | 5000 W Rated AC Output | 220 V Voltage |
