System Overview

Comprehensive Surveillance Solution

This 8-channel PoE security system delivers high-definition 5MP resolution for crystal-clear monitoring in both residential and commercial environments. Designed for efficiency, the system utilizes advanced H.265+ video compression to maximize storage space while maintaining superior image quality. With robust weatherproof construction and intelligent motion detection, this kit provides a reliable, all-in-one surveillance experience.

Camera Channels	8
-----------------	---

Video Performance

New generation H.265+ compression technology significantly optimizes storage usage compared to standard protocols.

Resolution	5MP
Video Compression	H.265+

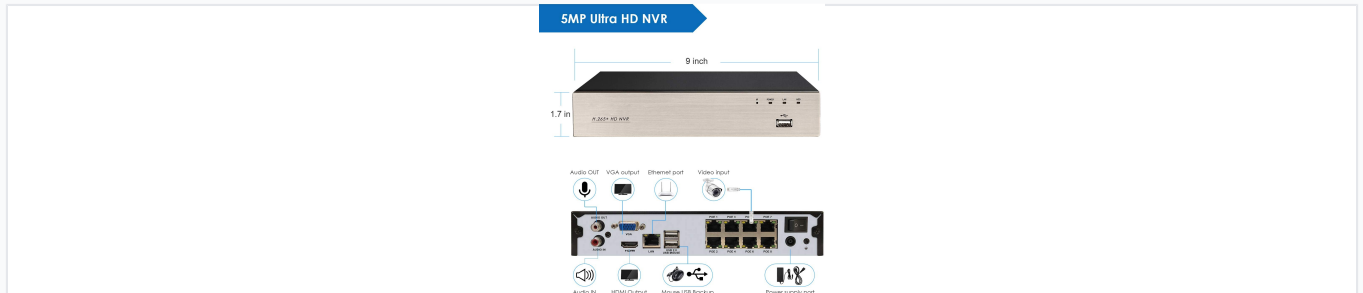

Camera Features

Weatherproofing
IP66

Lens Focal Length 3.6 mm

Night Vision Range 65 ft

NVR Connectivity

The NVR unit features 8 dedicated PoE ports for simple camera setup and multiple standard video outputs.

Supported Display Resolutions

- 1920*1080
- 1280*1024

Video Outputs HDMI, VGA

NVR Power Supply 48 V

Smart Features

Stay informed with intelligent motion detection that pushes instant notifications directly to your connected device.

Network & Remote Access

- TUTK P2P
- Amazon Web Server
- Automatic Firmware Updates (OTA)
