

5T Topkit Tower Crane with 50m Jib

This topkit tower crane has a maximum load capacity of 5 tons and a 50-meter jib. It can be configured as a stationary, inner-climbing, external climbing, or travelling tower crane.

Overview

High-Performance Topkit Tower Crane TC5013

The TC5013 tower crane is a versatile lifting solution designed for demanding construction environments. With a 5-ton maximum load capacity and a 50-meter jib, it offers exceptional reach and precision. This model supports stationary, inner-climbing, external climbing, and travelling configurations, providing maximum flexibility for diverse project requirements.

Technical Specifications

Performance Metrics

5 t Max Load	50 m Jib Length	1.3 t Tip Load
------------------------	---------------------------	--------------------------

Mast Section Dimensions

- 1.2m x 1.2m x 3.0m
- 1.6m x 1.6m x 3.0m

Mounting Configurations

Stationary, Inner-climbing, External climbing, Travelling

Operating Features

Control & Safety

- Frequency-controlled motor for trolleying
- Integrated speed reduction device
- Automatic trouble display system
- High operational reliability
- Overspeed protection
