

# 5W 2U Compact Fluorescent Lamp

This compact fluorescent lamp is designed as an energy-efficient alternative to traditional incandescent bulbs. The 2U-shaped tube configuration provides optimal light output while consuming only 5W of power, offering significant energy savings.

## ADDITIONAL IMAGES

## Product Overview

### Energy-Efficient Lighting Solution

This 5W 2U compact fluorescent lamp offers an energy-efficient lighting solution suitable for both residential and commercial environments. Designed with a compact 2U configuration, it provides effective illumination while consuming significantly less power than traditional incandescent bulbs. Its versatile design and standard base options ensure easy installation in a wide variety of existing lighting fixtures.

## Technical Specifications

### Technical Specifications

| Parameter             | Details                                 |
|-----------------------|---|
| Voltage               | 110V / 220V                             |
| Base Types            | E27, B22                                |
| Color Temperature     | 2700K - 8000K                           |
| Available Shapes      | 2U, 3U, Full Spiral, Half Spiral, Lotus |
| Available Power Range | 5W, 7W, 9W                              |

### Phosphor Materials

Powder, Blended Powder, Tri-color

## Logistics and Ordering

### Logistics Information

- Packaging: 50 PCS/CTN
- MOQ: 10,000 PCS per Watt

## Product Features

### Key Characteristics

- High light efficiency
- Extended operational lifetime
- Excellent color rendering
- Compact, aesthetic shape
- Easy installation
