Product Overview

High-Efficiency Elastic Cord Production

This 6-head, 6-needle knitting machine is engineered for the high-volume production of elastic round cords, including mask earloops, shoelaces, and various garment accessories. Featuring a robust design capable of 24/7 operation, it minimizes downtime while ensuring consistent output quality. The system supports a wide range of materials and includes advanced features like auto-stop motion and integrated metering for precise manufacturing.

Technical Specifications

Compatible Materials

- PP
- Polyester filament yarn
- Nylon (DTY)
- Cotton
- Polyester drawn textured yarn (DTY)
- Spandex

Number of Heads	6
Needle Model	9G
Operating Voltage	220V, 380V

Configuration Options

Available Needle Configurations

- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10
- 12
- 14
- 16
- 18
- 20
- 22
- 24

Inner Cylinder Diameters (mm)

- 3
- 3.5
- 4
- 5
- 6
- 8
- 10
- 12
- 14
- 15.5

Features & Capabilities

Core Features

Auto-stop motion • Meter counter • Take-up system • Optional heating system • 24/7 Continuous operation

Applications

Typical Applications

- Shoelaces
- Bag laces
- Seat-cushion cords
- Gauze mask ropes
- Cumberbunds
