

# 6 HP 4-Stroke Gasoline Outboard Motor

This 6 HP gasoline outboard motor is a 4-stroke small engine. The air-cooled engine has a displacement of approximately 139cc and includes a tiller handle and propeller.

## Overview

### Reliable Marine Propulsion

This 6 HP 4-stroke gasoline outboard motor is engineered for efficiency and reliability in marine environments. Its compact and lightweight design ensures easy transport and installation, making it an ideal choice for recreational boating and fishing applications. Featuring intuitive tiller steering and throttle control, this engine provides consistent performance for small watercraft.

## Technical Specifications

Rated Power	6 HP
Engine Type	4-Stroke
Engine Displacement	139 cc
Cooling System	Air-cooled

## Features

Key Features	Compact Design, Lightweight, Fuel Efficient, Easy Maintenance
--------------	---

## Operation

### Control System

- Tiller handle steering
- Integrated throttle control
- Propeller propulsion

## Performance Metrics

### Performance Highlights
