

6-Inch Abrasive Grinding Wheel with 1-1/4 Inch Arbor

This abrasive grinding wheel is designed for use with electric tools. It measures 6 inches in diameter, 3/4 inch thick, with a 1-1/4 inch center hole, and features 32A46 grit.

Product Overview

Professional Abrasive Grinding Solution

This 6-inch abrasive grinding wheel is engineered for efficient material removal and rough grinding applications. Constructed with high-quality Aluminum Oxide, it is optimized for performance on carbon steel, general steel, malleable cast iron, and hard bronze. Its robust design ensures durability and consistent results in demanding industrial environments.

Physical Dimensions

Diameter	6 inches
Thickness	0.75 inches
Arbor Hole Diameter	1.25 inches

Technical Specifications

Abrasive Material	Aluminum Oxide
Grit Specification	32A46

Applications

Compatible Materials	Carbon Steel, General Steel, Malleable Cast Iron, Hard Bronze
Primary Use	Rough Grinding
