Product Overview

High-Performance Agricultural Rubber Rollers

These 6-inch rubber rollers are precision-engineered for demanding agricultural machinery applications. Designed for durability and consistent performance, they help ensure smooth operation and longevity in planting and harvesting equipment. Available in multiple hardness levels and color options to suit specific operational requirements.

Technical Specifications

Available Hardness Options

- 90°
- 92°
- 95°

Model Number	LGL152(6")
Outer Diameter	222 mm
Roller Length	152 mm
Available Colors	White, Brown, Orange
Roller Type	Wheel Type

Customization

Custom Manufacturing Available

If you require rubber rollers or rubber products in specifications other than the standard LGL152 model, we offer custom manufacturing services. Please provide detailed information, technical drawings, or samples, and we can produce products tailored to your specific machinery requirements.
