

6-Inch Coaxial Car Speakers for Enhanced Audio

These 6-inch coaxial car speakers are designed for non-destructive installation. They deliver enhanced audio quality with 4Ω impedance, 3D sound technology, and extra bass enhancement.

Overview

High-Performance Audio Upgrade

These 6-inch coaxial car speakers are engineered to deliver a balanced and immersive audio experience for your vehicle. Featuring a durable paper cone woofer and a 25mm ASV voice coil, the system provides clear, high-fidelity sound reproduction across a wide frequency range. Designed for straightforward integration, these speakers offer an efficient upgrade for improved clarity, depth, and bass response.
