

6-Inch Diagonal Cutting Pliers with Ergonomic Grip

These 6-inch diagonal pliers are designed for cutting wires and small components. They feature heat-treated carbon steel construction and ergonomic rubber-like handles for enhanced comfort and control.

Product Overview

Professional Diagonal Cutting Pliers

These 6-inch diagonal cutting pliers are engineered for precision and durability in demanding work environments. Featuring a heat-treated, drop-forged carbon steel construction, they provide exceptional strength for cutting wires and small components. The ergonomic, rubber-like, double-color handle design ensures enhanced comfort and control during extended use, making them a reliable choice for various technical applications.
