

6-Inch Earth Auger Drill Bit with Steel Construction

This 6-inch diameter earth auger is constructed from durable steel and fits all Gardentrax powerheads. It is designed for planting trees, gardening, and large fencing projects, attaching to a 7/8 inch shaft powerhead.

Product Overview

Professional Grade Earth Auger

This 6-inch earth auger is engineered for high-performance digging in diverse soil conditions. Constructed from durable, all-steel materials, it provides the strength needed for planting trees, installing fence posts, and various gardening projects. Designed for reliability and ease of use, this tool ensures clean, precise hole boring for landscaping and construction professionals.

Technical Specifications

Auger Diameter	6 inch
Shaft Compatibility	7/8 inch
Construction Material	All-steel

Features & Compliance

Safety Standards
