Overview

Heavy-Duty Versatility

This 6-inch hitch-mounted vise is engineered for rugged industrial and field applications, providing a reliable clamping solution for mobile mechanics and construction sites. Constructed from durable ductile iron with a powder-coated finish, it features a dual-mounting design that fits standard 2-inch hitch receivers or traditional workbenches. With replaceable hardened steel jaws and integrated pipe jaws, this tool ensures a secure grip for demanding tasks in any environment.

Technical Specifications

Clamping Force

35 KN

Clamping Force

Jaw Width	6 inch
Jaw Opening	150 mm
Throat Depth	127 mm
Pipe Capacity	1/2" - 3 1/2"
Material Composition	Ductile Iron (SG Iron), Hardened Steel Jaws, Zinc-plated Handle, Powder-coated Finish
Tensile Strength	60000 PSI

Features

Mounting Compatibility

- 2-inch Square Hitch Receiver
- Workbench Mount

Key Features

Replaceable Jaws • Built-in Pipe Jaws • Adjustable Receiver Fit • Corrosion Resistant

Anvil Surface

74mm x 74mm
