

6-Inch Locking C-Clamp

This C-clamp has drop forged carbon steel jaws and a corrosion-resistant chrome plated finish. The knurled thumbscrew sets jaw capacity, and it has a one-touch quick release.

Product Overview

Versatile Locking C-Clamp

This 6-inch locking C-clamp is a versatile hand tool designed for securely clamping materials together during various fabrication tasks. It features a reliable locking mechanism that allows for convenient hands-free operation, while the adjustable clamping pressure ensures a secure hold. It is an ideal choice for professionals working in welding, woodworking, and metalworking applications.

Technical Specifications

Clamp Size	6 inch
Mechanism Type	Locking
Key Features	Hands-free operation, Adjustable pressure, Durable construction

Applications

Primary Applications

- Welding
- Woodworking
- Metalworking
