

6-Inch Submersible Borehole Water Pump

This 6-inch submersible borehole pump is designed for water supply from wells or reservoirs. It is suitable for domestic, civil, industrial, garden, and irrigation applications.

Overview

High-Performance Submersible Borehole Pump

This 6-inch submersible borehole pump is engineered for reliable water extraction from deep wells and reservoirs. It is suitable for a wide range of applications, including domestic water supply, civil infrastructure, industrial processes, and agricultural irrigation. Designed to meet NEMA dimension standards, this unit offers robust performance and durability for demanding environments.

Operating Conditions

Operating Limits

35

Max Fluid Temp

100 m

Max Immersion

0.5 %

Max Sand Content

Minimum Well Diameter

6 inch

Technical Specifications

Electrical Configuration

Phase	Voltage Range	Frequency
Single-phase	220V - 240V	50Hz
Three-phase	380V - 415V	50Hz

Starting Methods

- Direct start (1 cable)
- Star-delta start (2 cables)

Motor Options

Rewindable Motor, Hermetically-Sealed Motor

Compliance & Warranty

Standards and Certifications

NEMA Standard • ISO 9906 • CE • RoHS • CCC

Warranty

2 years
