

6-Inch Submersible Borehole Water Pump

This 6-inch submersible borehole pump is designed for water supply from wells or reservoirs. It is suitable for domestic, civil, industrial, garden, and irrigation applications.

Product Overview

High-Performance Submersible Borehole Pump

This 6-inch submersible borehole pump is engineered for reliable water supply from wells and reservoirs, making it suitable for a wide range of domestic, civil, and industrial applications. Designed to meet NEMA dimension standards, it offers robust performance with options for both single-phase and three-phase power configurations. With a maximum immersion depth of 100 meters and efficient operation, it provides a dependable solution for deep well water extraction and irrigation needs.

Operating Conditions

Max Fluid Temperature	35
Max Sand Content	0.25 %
Max Immersion Depth	100 m
Minimum Well Diameter	6 inch

Technical Specifications

Electrical Configuration

Phase	Voltage	Frequency
Single-phase	220V - 240V	50Hz
Three-phase	380V - 415V	50Hz

Starting Methods

- Direct start (1 cable)
- Star-delta start (2 cables)

Motor Construction	Rewindable, Hermetically-Sealed
--------------------	---------------------------------

Compliance & Warranty

Certifications

ISO 9001 • CE • RoHS • GS • CCC

Warranty	2 years
