

6-Inch Submersible Deep Well Pump

This 6-inch submersible deep well pump is designed for efficient water extraction from boreholes. It is suitable for a variety of applications, including agricultural irrigation, water supply, and industrial use.

Product Overview

High-Efficiency Submersible Deep Well Pump

This 6-inch submersible pump is engineered for reliable water extraction from boreholes, wells, and reservoirs. Designed for versatility, it serves domestic, civil, and industrial water supply needs as well as agricultural irrigation. Built to withstand demanding environments, it features robust construction and complies with international quality standards for consistent performance.

Operating Conditions

Maximum Fluid Temperature	35
Maximum Sand Content	0.5 %
Maximum Immersion Depth	100 m
Minimum Well Diameter	6 inches

Technical Specifications

Voltage & Frequency

- Single-phase: 220V-240V / 50Hz
- Three-phase: 380V-415V / 50Hz
- Optional: 60Hz

Starting Methods

- Direct start (1 cable)
- Star-delta start (2 cables)

Motor Type	Rewindable or Hermetically-Sealed
Standards & Certifications	NEMA Dimension Standards, ISO 9906, CE, RoHS, ISO 9001
Warranty	2 years
