

6-Person Emergency Inflatable Life Raft

This inflatable life raft is designed for life-saving use and can accommodate up to six people. It is constructed with high-visibility orange fabric and equipped with reflective elements for enhanced visibility.

Product Overview

Emergency Marine Safety Solution

This 6-person emergency inflatable life raft is engineered for critical marine safety, featuring a durable, high-visibility orange construction that ensures rapid detection in distress scenarios. Designed for compact storage and quick deployment, it serves as an essential piece of peripheral equipment for ships and maritime vessels. Its robust build quality prioritizes reliability and ease of use when every second counts.
