

6 x 1/2 x 1-1/4 Abrasive Grinding Wheel

Abrasive grinding wheel designed for use with bench grinders and similar tools. Constructed from durable abrasive grains bonded together for effective material removal and long wheel life.

Overview

High-Performance Abrasive Grinding Wheel

This 6-inch grinding wheel is engineered for efficient material removal and precision shaping. Constructed from durable aluminum oxide abrasive grains, it provides consistent performance across a variety of metalworking applications. Ideally suited for bench grinders, this wheel is a reliable choice for sharpening, deburring, and general rough grinding tasks in professional shop environments.

Technical Specifications

Diameter	6 inches
Thickness	0.5 inches
Arbor Hole Size	1.25 inches
Abrasive Material	Aluminum Oxide

Applications

Primary Applications

- Rough grinding
- Sharpening
- Shaping
- Deburring

Compatible Materials	Carbon Steel, General Steel, Malleable Cast Iron, Hard Bronze
