

6 x 3/4 x 1-1/2 inch Grinding Wheel

This grinding wheel measures 6 x 3/4 x 1-1/2 inches. The A46-06-V30 specification ensures efficient material removal and consistent finishing.

Product Overview

High-Performance Aluminum Oxide Grinding Wheel

This 6-inch grinding wheel is engineered for efficient material removal and consistent finishing in demanding industrial environments. Constructed with high-quality Aluminum Oxide, it is specifically optimized for rough grinding tasks on carbon steel, general steel, malleable cast iron, and hard bronze. Its robust design ensures reliability for sharpening, shaping, and deburring applications across various grinding machines.

Physical Dimensions

Diameter	6 inch
Thickness	0.75 inch
Arbor Hole	1.5 inch

Technical Specifications

Primary Applications

- Rough Grinding
- Sharpening
- Shaping
- Deburring

Abrasive Material	Aluminum Oxide
Bond Specification	A46-06-V30
Compatible Materials	Carbon Steel, General Steel, Malleable Cast Iron, Hard Bronze
