

600W Woodworking Edge Trimmer

This precision-machined trimmer provides long-term durability. The high-power 600W motor makes woodworking tasks easier and faster.

Product Overview

Professional Edge Trimming Solution

This compact and versatile edge trimmer is engineered for precision woodworking and professional finishing applications. Featuring a clear base for superior visibility and a high-speed motor, it ensures clean, accurate cuts for laminates and decorative edge profiles. Designed for efficiency, this tool offers adjustable depth control to meet the rigorous demands of detailed wood surface finishing.

Technical Specifications

Model Configuration Table

Voltage/Frequency	Power	Clamp Capacity
230V, 50Hz	500W	6mm
120V, 60Hz	450W (4A)	1/4"

Performance Metrics

No-Load Speed

30000 min-1

Rotational Speed
