

60.5m Anchor Handling Tug Supply Vessel

This 60.5m anchor handling tug supply vessel is a versatile and powerful vessel designed for a variety of offshore support operations. Its capabilities include anchor handling, towing, supply transport, and emergency response.

Overview

Versatile Offshore Support

This 60.5m Anchor Handling Tug Supply (AHTS) vessel is a robust and highly capable platform engineered for demanding offshore operations. Designed with a spacious deck for cargo transport and powerful winching systems, it excels in anchor handling, towing, and supply logistics. With its ABS classification and advanced dynamic positioning capabilities, it provides a safe and efficient solution for complex marine environments.

General
