

# 60A 3-Pole Magnetic Contactor DP 240V

This 3-pole magnetic contactor is rated for 60A at 240V. It is designed for definite purpose (DP) use and is suitable for Telemecanique systems.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Definite Purpose Contactor

This 3-pole magnetic contactor is engineered for reliable electrical switching in HVAC and refrigeration systems. Designed for demanding industrial and commercial environments, it features robust construction and is certified for safety and quality. It provides efficient control of electrical loads, ensuring durability and consistent operation for critical equipment.

## Technical Specifications

### Rated Current

**60 A**

Rated Current

### Voltage Ratings

Parameter	Value
Operating Voltage	240V
Maximum Voltage	600V

### Pole Configuration

3-Pole

## Certifications & Compliance

### Certifications

CE • CUL

## Quality Assurance

### Quality Control

- 100% self-inspection
- Rigorous testing before packing

## Ordering & Logistics

Production Lead Time	15-20 days after deposit
Payment Terms	30% deposit, balance against B/L copy
