

60A 690V AC Contactor

This AC contactor is designed for various electrical applications, ensuring dependable switching and control of electrical circuits. It features a 60A rated operational current and a 690V rated insulation voltage and complies with IEC, GB, and VDE standards.

Overview

High-Performance AC Contactor

This robust AC contactor is engineered for reliable power switching in demanding industrial environments. Designed for circuits with rated load currents exceeding 10A, it provides dependable control for high-power electrical appliances and motors. Its durable construction ensures consistent performance, making it an essential component for central air conditioning systems and other complex electrical setups.

Electrical Ratings

Rated Operational Current (I _{th})	60 A
Rated Insulation Voltage (U _i)	690 V
Control Coil Voltage	220 V

Compliance & Standards

Certifications & Standards	IEC 60947-1, GB 4048.4, VDE 0660, CE
