Product Overview

Industrial Pressure Monitoring

This 60mm pressure gauge is engineered for high-accuracy monitoring of hydraulic and pneumatic systems with a maximum capacity of 12 bar. It features a robust, durable plastic construction suitable for a wide range of industrial and commercial environments. Designed with a convenient back-connection interface, it allows for seamless installation into existing system panels and equipment.

Technical Specifications

Dial Size	60 mm
Max Pressure	12 bar
Mounting	Back Connection
Accuracy Class	CL 1.6
Compliance	EN 837-1

Materials and Construction

Component Materials

Component	Material Options
Movement	SS304/Brass
Connection	SS316/SS304/Brass
Bourdon Tube	SS316/Phosphor bronze
Case Material	Plastic
