

6.0V 5000mAh Rechargeable Ni-MH Battery Pack

Rechargeable Ni-MH battery pack designed for electronic applications. It features a 6.0V output and a 5000mAh capacity for extended use.

Product Overview

High-Capacity Power Solution

This 6.0V rechargeable Ni-MH battery pack is engineered for demanding electronic applications requiring a reliable and long-lasting power source. With a substantial 5000mAh capacity, it ensures extended runtimes for your devices. The pack utilizes high-quality D-size cells in a robust cylindrical configuration, making it an ideal choice for professional-grade equipment.

Technical Specifications

Rated Voltage	6 V
Rated Capacity	5000 mAh
Chemistry	Ni-MH (Nickel-Metal Hydride)
Cell Size	D-size
Key Features	Rechargeable, High Capacity, Extended Runtime

Construction

Configuration	Cylindrical cell pack with insulated wiring
Terminals	Insulated wiring (Positive/Negative)
