

60W Ceiling Fan with Three Blades

This ceiling fan is designed for residential or commercial use. It features a 60W motor to provide efficient air circulation.

Product Overview

High-Efficiency Air Circulation

The CF101H-60W ceiling fan is engineered for versatile residential and commercial applications. Equipped with a robust 60W motor, it delivers reliable and efficient air circulation while maintaining quiet operation. Its three-blade design is optimized for performance, ensuring both longevity and ease of maintenance for professional environments.

Technical Specifications

Motor Power

60 W

Power Consumption

Blade Configuration

3 blades

Features & Benefits

Key Features

- Optimized for quiet operation
- Durable construction
- Easy installation
- Low maintenance requirements

Suitable Applications

Residential, Commercial
