

# 60W LED Ceiling Light for Industrial Use

This 60W LED ceiling light is designed for industrial and commercial applications. Its LED array provides high lumen output and energy efficiency, ensuring long lifespan and low maintenance.

## Overview

### Industrial High-Power LED Ceiling Solution

This 60W integrated LED ceiling lamp is engineered for high-performance industrial lighting, utilizing an isolated low-pressure constant current driver for maximum stability. It offers a sustainable lighting alternative with no ultraviolet or infrared radiation, making it ideal for sensitive environments. Designed for longevity and efficiency, it is perfectly suited for large-scale indoor locations such as warehouses, workshops, and gymnasiums.

## Key Performance Metrics

### Performance Highlights

**60 W**

Rated Power

**50000 Hrs**

Lifespan

**80 lm/W**

Light Efficiency

## Technical Specifications

### Optical Characteristics

Parameter	Value
LED Type	40pcs bright super power LED
Color Temperature	3000K - 7000K (Adjustable)
Color Rendering Index (CRI)	e70
Light Color	White

## Electrical Parameters

Input Voltage	AC 150-240V
Power Factor	0.9 >

## Physical Construction

Housing Material	Aluminum
Finish	Silvery
Size	!465x H475 mm
Net Weight	4.5 kg

## Environmental & Durability

IP Rating

IP42

Operating Temperature

-35 to +50

Ambient Humidity

d95%

## Applications

Recommended Use Cases

Mines, Airports, Railway Stations, Gymnasiums, Workshops, Warehouses, Indoor Parks
