

# 6219 Deep Groove Ball Bearing

This 6219 deep groove ball bearing offers good quality, high performance and long life. It is designed for demanding industrial applications, ensuring smooth and efficient operation in a variety of machinery.

## Overview

### High-Performance Deep Groove Ball Bearing

This 6219 deep groove ball bearing is engineered for demanding industrial applications requiring high precision and reliability. Designed to ensure smooth and efficient operation, it is an ideal component for rotating equipment such as electric motors, pumps, and gearboxes. Its robust construction minimizes maintenance requirements while delivering long-lasting performance in challenging environments.

## Key Features

### Service Commitment

Reliable Service • Quality Assured

### Performance Attributes

High Performance, Long Life, High Precision

## Technical Specifications

### Bearing Type

Deep Groove Ball Bearing

### Model Number

6219
