

# 6.35mm Male to 3.5mm Female Stereo Audio Adapter

This adapter converts a 6.35mm (1/4 inch) stereo plug to a 3.5mm (1/8 inch) stereo jack. It is gold plated for optimal signal transfer and corrosion resistance.

## Product Overview

### High-Quality Audio Connectivity

This premium 6.35mm (1/4 inch) male to 3.5mm (1/8 inch) female stereo adapter is designed for professional audio applications. Featuring a durable metal construction with gold-plated contacts, it ensures optimal signal transmission and corrosion resistance. The unit includes a secure screw-locking mechanism, making it ideal for use with guitar amplifiers, stereo systems, and professional headphones.
