### Product Overview

#### Professional 6.35mm Mono Audio Plug

This 6.35mm (1/4 inch) mono audio plug is designed for reliable signal transmission in professional audio environments. Constructed with a durable metal shaft and a resilient ABS housing, it ensures long-lasting performance for instruments and sound equipment. The integrated strain relief spring offers essential protection against cable bending and breakage, making it an ideal choice for demanding audio applications.

### Technical Specifications

Model Number	EA-C-023
Connector Type	6.35mm (1/4 inch) Mono Audio Plug

### Materials & Build

Materials Used	ABS Plastic, Zinc Alloy, Metal
Color	Black

### Features

#### Key Features

- Mono audio signal transmission
- Durable metal shaft
- Integrated wire protector/strain relief spring
- Secure solder terminals
