Overview

High-Performance Vertical Shaft Engine

This 6.5 HP vertical shaft gasoline engine is engineered for versatility and reliability in various industrial and machinery applications. Featuring a 196cc displacement and a 4-stroke single-cylinder design, it delivers consistent power for demanding tasks. With both hand and electric start options and an air-cooled system, this engine is built for ease of operation and durability in diverse working environments.

Performance Metrics

Power Output

6.5 HP

Maximum Power

3600 rpm

Rated Speed

196 cc

Displacement

Technical Specifications

Engine Configuration

Feature	Specification
Stroke	4 Stroke
Cylinder	Single Cylinder
Cooling System	Air-cooled
Ignition Type	T.C.I
Bore x Stroke	68 x 54 mm

Operational Capacities

- Fuel Tank Capacity: 4 L
- Oil Capacity: 0.6 L

Physical Attributes

Dimensions & Weight

- Dimensions (L*W*H): 405*380*375 mm
- Weight: 17 kg

Commercial Details

Warranty & Compliance

1 Year Warranty • 1 Year Core Component Warranty • New Condition

Applicable Industries

Building Material Shops, Manufacturing Plant, Machinery Repair Shops, Farms
