

# 65-Inch Interactive Flat Panel Display

This 65-inch interactive flat panel display features a high-resolution screen and touch-enabled interface. Integrated software supports presentations, whiteboarding, and content sharing in meeting rooms, classrooms, and huddle spaces.

## ADDITIONAL IMAGES

## Product Overview

### Professional Interactive Collaboration Display

This 65-inch interactive flat panel is designed for modern collaborative environments, offering a seamless blend of high-definition visuals and intuitive touch technology. With a 4K commercial-grade display and advanced writing precision, it supports dynamic presentations, remote conferencing, and multi-device interaction. Ideal for meeting rooms and classrooms, it streamlines workflows through wireless screen mirroring, split-screen comparisons, and easy content sharing.
