

650mAh Rechargeable Lithium-Ion Battery

Rechargeable lithium-ion battery features a 650mAh capacity. It is designed for use in electronic devices needing a compact and lightweight power source.

Overview

Compact Power Solution

This rechargeable lithium-ion battery offers a reliable 650mAh capacity, specifically engineered for compact and lightweight electronic devices. Designed for versatility, its standardized dimensions ensure broad compatibility across a range of applications. It provides a stable and efficient power source for various portable electronics.

Technical Specifications

Capacity

650 mAh
Capacity

Chemistry	Lithium-Ion
Rechargeable	Yes
Model Identifier	LI053435A

Features

Key Features	Compact Design, Lightweight, High Energy Density, Rechargeable
--------------	--
