

6.5kW Diesel Generator with AVR

This diesel generator delivers a maximum power output of 6.5kW and a rated output of 5.5kW. It features an OHV engine with brushless technology and an oil warning system for efficient and safe operation.

Overview

Reliable Power Generation

This diesel generator is engineered for versatility, offering a robust solution for both residential and commercial power requirements. Equipped with an efficient OHV engine and brushless technology, it ensures stable and consistent energy delivery. Built-in safety features, including an oil warning system, provide peace of mind during extended operation.

Performance Metrics

Maximum Power Output
