

6.5kW Diesel Generator

This 6.5kW diesel generator provides a stable and efficient power supply. The air-cooled design and durable construction make it suitable for various residential and commercial applications.

Overview

Reliable Power Solution

This 6.5kW diesel generator is engineered for robust performance in both residential and commercial environments. Featuring an air-cooled design and a durable construction, it provides a stable and efficient power supply for backup needs, construction sites, and outdoor events. Its compact build and easy-start system ensure consistent, reliable operation whenever power is required.

Technical Specifications

Rated Power Output

6.5 kW

Rated Power

Fuel Type

Diesel

Cooling System

Air-cooled

Model Number

JDP7500-LDENS

Applications

Suitable Applications

- Residential backup power
- Commercial power supply
- Construction sites
- Outdoor events

Features

Key Features

Durable Construction, Easy Start System, Compact Design, Portable
