

65L Cylindrical Beverage Cooler

This 65L barrel can cooler is designed for efficient and convenient beverage storage. Featuring a compact and cylindrical design, it maximizes storage capacity while minimizing floor space.

Product Overview

Compact Cylindrical Beverage Storage

This 65L barrel can cooler is designed for efficient and convenient beverage storage in both commercial and residential settings. Its unique cylindrical shape maximizes storage capacity while minimizing the required floor space. Built with durable materials for longevity and easy maintenance, it features a high-performance cooling system to ensure consistent temperatures for all beverages.

Technical Specifications

Total Capacity	65 L
Design	Cylindrical / Barrel

Features

Cooling Performance

High-Performance • Consistent Temperature

Storage Features

- Adjustable shelves
- User-friendly temperature control panel

Usage

Application	Commercial, Residential
