

65W Universal Power Adapter

This universal adapter provides 65W of power. It features built-in safeguards such as short circuit protection, over current protection, over voltage protection, and over temperature protection.

Product Overview

Compact High-Efficiency Power Solution

This 65W universal power adapter utilizes advanced GaN technology to achieve industry-leading portability without compromising performance. Designed for global compatibility, it supports major fast-charging protocols including PD3.0 and QC3.0, making it an ideal source for laptops, tablets, and smartphones. Its high-efficiency architecture ensures minimal standby power consumption and exceptional thermal management for professional environments.

Technical Performance

Output Power	30 W
Conversion Efficiency	92 %
Supported Protocols	PD3.0, QC3.0, QC2.0, Apple 5V/2.4A

Input & Electrical

Input Voltage Range	AC 100-240V
Standby Power Consumption	0.075 W

Physical Attributes

Dimensions	39 x 39 x 28 mm
Product Weight	50 g
Working Temperature	0 - 40

Safety & Compliance

Energy Efficiency Class

Level VI

Safety Protections

- Short circuit protection
- Over current protection
- Over voltage protection
- Over temperature protection
