

# 67.2V 8A Lithium Battery Charger

This battery charger is designed for lithium-ion batteries, providing an output of 67.2V at 8A. It features LED indicators to display the charging status.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Battery Charging Solution

This versatile 600W battery charger is engineered for efficiency and reliability in powering electric mobility devices. Constructed with a durable aluminium alloy housing, it supports multiple battery chemistries including LiPo, LiFePO4, and lead-acid. Designed for international use, it features a flexible input voltage range and is built to rigorous safety standards.

## Technical Specifications

### Output Voltage & Current

**67.2 V**  
Voltage

**8 A**  
Current

Output Power	600 W
Input Voltage Range	110-132VAC, 200-264VAC
Compatible Battery Types	LiPo, LiFePO4, Lead Acid

## Physical Attributes

Dimensions	135 x 90 x 50 mm
Net Weight	1.35 kg
Housing Material	Aluminium Alloy

## Compliance & Support

### Certifications

CE

### Typical Applications

- Electric Motorcycle
- Scooter
- E-bike

### Warranty Period

12 Months
