Overview

High-Performance Fiber Optic Connectivity

This 6ft fiber optic HDMI cable is engineered for high-bandwidth, high-resolution signal transmission, making it an ideal choice for professional AV, gaming, and home theater environments. It supports 4K resolution at 60Hz and features a robust 18Gbps bandwidth to ensure reliable, high-definition audio and video performance. With support for HDR, Dolby Vision, and HDCP 2.2, this cable provides a future-proof solution for demanding display applications.

Technical Specifications

Bandwidth

18 Gbps

Bandwidth Capacity

Chroma Subsampling

- 4:4:4
- 4:2:2
- 4:2:0

Cable Length

6 ft

Maximum Resolution

4K @ 60Hz

Features & Compatibility

Supported Standards

HDR, Dolby Vision, HDCP 2.2, ARC, 3D Video

Design & Build

Connector Type

Replaceable plug
