

## 6L Air Fryer with Digital Controls

This 6L air fryer features a digital control panel and preset operation modes for simple operation. It utilizes a top stainless steel heating element with a convection system for faster and healthier cooking.

### ADDITIONAL IMAGES

### Overview

#### High-Efficiency 6L Digital Air Fryer

This 6L air fryer is designed for healthy, oil-free cooking with a powerful 1400W stainless steel heating element and convection system that cooks 20% faster than traditional methods. Featuring a large digital control panel with 16 preset modes, it offers versatile functionality for everything from frying and baking to dehydrating. The unique 3D visible window and double-layer insulating glass allow for safe, real-time monitoring of your culinary progress.
