

6V 2800mAh Ni-Cd Rechargeable Battery Pack

This is a 6V Ni-Cd rechargeable battery pack with a capacity of 2800mAh. It is constructed with multiple cylindrical cells wrapped in a light green plastic film. The battery pack has two wires extending from it, one red and one black, for positive and negative terminals respectively. It is suitable for various electronic devices requiring a 6V power source.

Overview

Reliable 6V Power Solution

This 6V 2800mAh Ni-Cd rechargeable battery pack provides a dependable power source for various electronic applications. Designed with a robust construction and standard wiring, it integrates seamlessly into devices requiring consistent voltage. Its rechargeable nature ensures long-term utility and cost-effectiveness for professional equipment needs.

Technical Specifications

Nominal Voltage	6 V
Capacity	2800 mAh
Battery Chemistry	Ni-Cd (Nickel-Cadmium)
Rechargeable	Yes

Design & Connectivity

Terminal Type

- Red Wire (Positive)
- Black Wire (Negative)

Construction	Cylindrical Cells, Plastic Film Wrapped
--------------	---
