

6V 2800mAh Rechargeable Battery Pack

This is a high-capacity rechargeable battery pack with a 6V output. It has a 2800mAh capacity and includes power leads for connection.

Overview

High-Capacity Power Solution

This rechargeable battery pack delivers a reliable 6V output with a substantial 2800mAh capacity, making it an ideal energy source for various electronic applications. Designed with durability in mind, the cells are encased in a protective green wrap to ensure longevity and safety during operation. The unit comes pre-fitted with standardized red and black power leads, allowing for seamless integration into your existing systems.
